1. Claims 1-5, 8-15, 17, 20-26, 29-38, and 41-47 remain for examination.
2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-5, 8-15, 17, 20-26, 29-38, and 41-43, drawn to a method of replacing with equivalent instruction requiring fewer issue slots, classified in class 712, subclass 226.
  - II. Claims 44-47, drawn to a method of instruction word construction with replaceable operation, classified in class 712, subclass 24.
3. The inventions are distinct, each from the other because of the following reasons:  
Inventions *Group I* and *Group II* are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because the invention of Group I can be used in *a system without the instruction word construction*. The subcombination has separate utility such as *use in a system without the replacement with instruction requiring fewer issue slots*.
4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification and the search required for one group is not required for the other group, restriction for examination purposes as indicated is proper.
5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kenneth S KIM whose telephone number is (703) 305-9693. The examiner can normally be reached on M-F (8:30-17:00).

Art Unit: 2111
